

## **PRESS RELEASE**

### **For Immediate Attention**

# **NAD Introduces Two New Power Packed Custom Installation Amplifiers Models CI9060 and CI9120 Power-Amps Now Available from UK Retailers and Custom Installers**

NAD Electronics has introduced two multi-channel Power-Amplifiers designed primarily for Custom Installation applications, the 6-channel CI9060 and the 12-channel CI9120.

The NAD CI9060 and CI9120 are both radically new, versatile and complex 6-channel and 12-channel products designed to bring NAD's famous amplifier performance to a wide variety of custom-installation applications. Both offer and 80-watts per channel (8-ohms) for the most demanding custom-installation applications and are designed with multifaceted, multi-zone audio systems in mind to drive larger in-wall, on-wall or outdoor speakers with ease. The units are rack-mountable and offer easy system configuration through NAD's Flex-Pad feature, as well as reliability to changing loads of impedance through the Output Management Circuit, which insures years of reliable, clean power.

**CI9060 Power Amplifier**

- 80W x 6 Continuous power (8 ohms); all channels driven simultaneously
- Multi-channel power amp for custom installation
- Flex-Pad allows easy system configuration
- Autologic turn on circuit
- Output Management Circuit (OMC) ensures reliability
- Individual input level controls
- EIA rack mount integrated
- Quiet low-pressure cooling system
- Suggested Retail Price £925.00

### **CI9120 Power Amplifier**

- 80W x 12 Continuous power (8 ohms); all channels driven simultaneously
- Multi-channel power amp for custom installation
- Flex-Pad allows easy system configuration
- Autologic turn on circuit
- Output Management Circuit (OMC) ensures reliability
- Individual input level controls
- EIA rack mount integrated
- Quiet low-pressure cooling system
- Suggested Retail Price £1325.00
