

## **PRESS RELEASE**

### **For Immediate Attention**

#### **NAD Introduces IPD 2 Dock for iPod®**

**NAD's IPD 2 Dock is an easy and convenient way to enjoy music and video from any iPod on your NAD system. This attractive dock features a weighted base and a rubber foot to provide a stable platform for the iPod.**

#### **Features Include**

- **Analogue Audio and S-Video connection from iPod to any AV Receiver or Amplifier**
- **Control and Display of iPod media on NAD models with a Data Port\*.**
- **Line Level audio output for better quality audio**
- **Automatic charging for the iPod**
- **Stand-alone control of iPod with supplied remote control**

**Navigation is fast and responsive in keeping with Apple's renowned music library software. Selected track and playing time are also displayed,**

and your music library can be browsed without interrupting play. Volume is controlled by your NAD receiver when using the IPD 2 Dock. A one metre cable is included to connect the IPD 2 Dock to an NAD system. The compact charging module is a “universal” type that will work with any AC voltage from 100V ~ 240V and includes plug adaptors for different regions worldwide. The convenience of controlling an iPod using a TV to view the song titles, and the NAD remote to navigate, makes sharing music more rewarding than ever.

NAD IPD 2 Dock for iPod is available now at a recommended retail price of £95.00.

## RELEASE ENDS/NO EMBARGO

\*This function only works on select NAD models that also have the required “Data Port”. Users will need a TV to see the complete song list, although the 2 line front panel display of the NAD system will also display the iPod information. At this time the models including this Dock Port are the AV Receiver models T785, T775, T765, T755 and T175. Other future models are planned to include the Data Port as well.
