KEF ANNOUNCES NEW KHT2005.3 K1 HOME CINEMA SYSTEM

Affordable Option Includes KEF KUBE-1 High Performance Compact Subwoofer

In a further move to widen the appeal of its world-famous KHT Series, KEF has introduced the new KHT2005.3 K1 5.1 home cinema system. The KHT2005.3 K1 comprises the same satellites and centre speakers* as the KHT2005.3, with their Uni-Q® driver array, metal dome tweeters and cast aluminium enclosures, but includes the KEF KUBE-1 subwoofer.

A compact and yet high performing subwoofer, the KUBE-1 provides a powerful and precise bass for both music and movies. The sealed cabinet is designed to be space saving and yet the 150W on board amplifier, which powers both the 200mm (8in.) long-throw bass driver and the 200mm (8in.) ABR (Active Bass Reflex), provides a performance that belies its size.

The new The KHT2005.3 K1 offers outstanding performance for the money, having a suggested retail price of £699.99 (complete). It is available from August 1st.

*4 x HTS2001.3, 1 x HTC2001.3
