Denon Advanced Quality Engineering

Acoustic Luxury: Denon launches new high-end earphones for a whole new level of comfort and listening pleasure

June 2009 - Denon, one of the world's leading manufacturers of high-quality home entertainment components, has unveiled a stylish, high performance new earphone model: the AH-C710 (suggested retail price of £139.99). The newcomer in the company's successful headphone line-up is designed for total comfort and style with unique audio technologies for optimum sound.

For comfortable listening, the AH-C710 features a new *ergonomic design* that fits in the ear more securely and also decreases mechanical vibration. A newly developed *radial cascade damper* dramatically reduces cable transmitted vibration noise that occurs when touching or rubbing the cable while moving. Denon's *high-quality sound* is achieved thanks to an all new *hybrid housing* with a combination of different materials. In addition, the new headphones feature a specially designed *acoustic optimizer* that ensures dynamic sound and deep rich bass response, with optimum acoustic characteristics achieved by adjusting the sound pressure balance in front of and behind the diaphragm.

For total flexibility, the AH-C710 comes with a variety of accessories, including multiple sizes of comfortable ear-pieces, extension cables (0,8 m), cable clips and adjusting sliders to ensure the perfect fit for every listener. In addition, the new designs feature a special "soft-foam" earpiece for added comfort and luxury. The mouldable foam forms to the dynamic shape of the ear canal so that, even while moving around, the buds remain in place. They also come with a new specially designed carrying case with intelligent cable management, as well as OFC (oxygen free copper) cables for enhanced sonic performance.

Main Features:

- Radial Cascade Damper reduces cable transmitted vibration noise
- Ergonomic Design for the best fit and increased comfort
- Acoustic Optimizer for clear, dynamic sound
- Hybrid Housing for highest fidelity sound reproduction

AH-C710

- 3 sizes (S/M/L) ear-pieces plus soft-foam ear-piece
- Elastomer (soft plastic) and carved solid Aluminium housing
- 11.5mm driver
- Special carrying case with integrated cable management
