PRESS RELEASE **For Immediate Attention**

Systemline Modular Advanced System Installed in Impressive Belle Vue Mills Development by Novo Homes

Armour Home has announced details of its Systemline Modular brand being selected and installed by HG Life Style (Harry Garlick), in all of the 65 one and two bedroom flats included in the enterprising Belle Vue Mills development by Novo Homes, in Skipton, a town nestling in the lovely Yorkshire Dales.

Based in the North West of England, Armour's Installation partner HG Life Style has been involved in the provision and installation of bespoke life style home entertainment systems for the past six years. A delighted purchaser of one of the Belle Vue Apartments commented, 'I bought a Systemline Modular (system installation) with touch-screen controls from Harry Garlick for my new flat. The installation only took a few visits and the staff was always there when they said they would be - and cleaned up after themselves! The system itself does exactly what it says it does; I am able to listen to whatever I want wherever I want. I haven't used Harry Garlick before but I would definitely consider them for any future electronics'.

Now with Wireless Touchscreen, Systemline offers the ideal multi room system, with the ability to listen to or watch whatever you want to, in any room of your home. The solution is a non-intrusive system - built-in to the fabric of your home in much the same way as central heating, lighting or plumbing. All that you would typically see are very discreet flush mounted ceiling speakers and elegant in-wall keypads rather than a mishmash of boxes intruding into your living space. Systemline Modular

Home Entertainment systems comply with all required building regulations and are installed to the highest possible standards.

Belle Vue Mills, a key feature on Skipton's landscape for more than a century will undergo a multi-million transformation over the next two years. This will incorporate an exclusive waterside development of luxury one, and two bedroom apartments and townhouses. Belle Vue Mills is the perfect union of lifestyle and location. And – all the apartments will incorporate highest quality sound system throughout, using Systemline Modular.
