For Immediate Attention

Universal Electronics Simplifies Integration of NevoS70 and NevoQ50 Controllers with Release of NevoStudio® Pro 3.0

Easy Access for Partners and more Powerful ‘Building Blocks’ for Retailers Gives Seamless and Efficient Home Integration

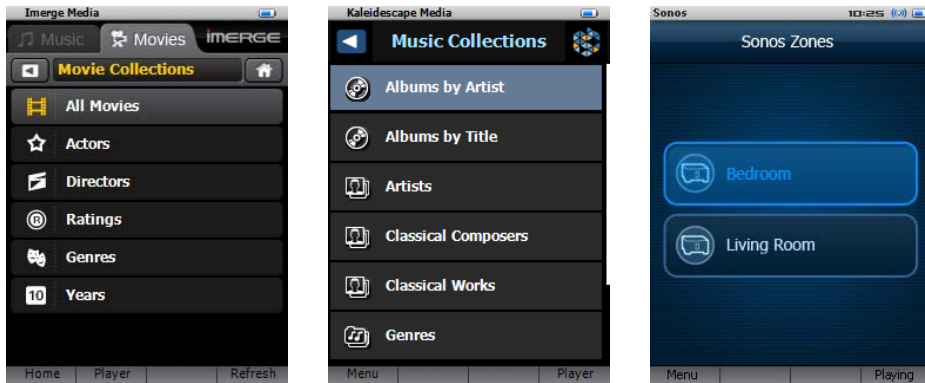

NevoS70 on Stand

Armour Home has announced the introduction to the UK of the NevoStudio Pro 3.0 software suite, a powerful new 2-way control system with features to unlock the true potential of NevoQ50 and NevoS70 Pro Series Controllers.

NevoStudio Pro 3.0 includes:

- .Nevo Plug-ins – 2-way plug-in modules developed for and with industry leaders for seamless and efficient home integration

An intuitive wizard driven interface allows for easy customization. Initial .Nevo Plug-ins will be available for Imerge®, iPort®, Kaleidescape®, and Sonos®. More plug-ins will become available for free download from www.mynevo.com.

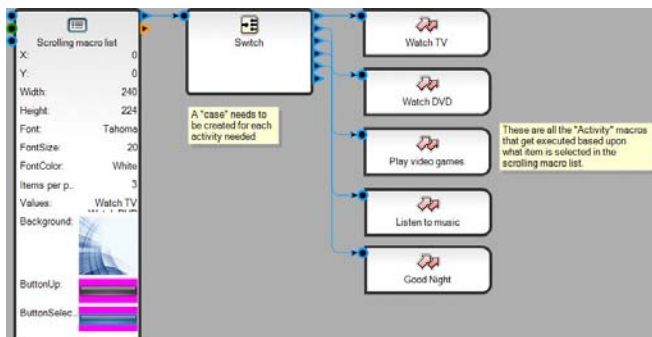

- Nevo® Widgets – 2-way scripting without the scripting

A drag and drop, building block style workspace, to create widgets that can send commands and receive feedback for practically anything. Nevo Widgets can be as simple as a visual volume level indicator or as advanced as a whole home lighting interface.

Nevo Widgets can easily be exported and shared with others.

Scrollable Activity List: Easily create a scrolling list of activity macro buttons.

- Other enhancements:

- Direct control of network enabled devices like media servers, IP cameras, and AV receivers

- Scheduled Macros to be executed at a certain date and time

- Locate device commands and errors easily with the new “find in job” search feature

- Enhanced SuperFast Device Swap - swap devices with more flexibility and convenience

- Global Flags to make macros even more powerful
- And more ...

“The competitive custom installation market demands continual innovation and improvement in both the customer and the installer experience,” says Em Klaver, VP of Custom Install business unit at Universal Electronics. “As technology evolves the need to quickly and simply access the different forms of entertainment media increases dramatically. NevoStudio Pro 3.0 further builds on a tradition of providing professional installers the tools they need to implement features their customers will appreciate.”

“This has taken the Nevo Pro series controllers to the next level, giving the installer the ability to integrate and control virtually any piece of equipment,” says Steve Adams, CI Brand Manager at Armour Home. “The two-way Plugins developed are simply drag and drop and give a rich environment in which to control the device”. “The Sonos® plug-in in my opinion is class leading amongst handheld universal controllers giving thumbnail album art while browsing, control of Internet radio and the ability Group and Un-Group Sonos® zones on the fly.”

Since its initial release, the award-winning Nevo family has won accolades from critics and consumers alike for bringing total home entertainment control in an intuitive and attractive package. Professional installers prefer Nevo for the flexibility and customization it provides for their customers.

The NevoStudio Pro 3.0 is available now.

NevoStudio Pro 3.0 comes with the purchase of any Nevo Pro Series Controller and is also available to custom electronics dealers via download at www.mynevo.com.

About Universal Electronics

Founded in 1986, Universal Electronics Inc. (UEI) is the global leader in wireless control technology for the connected home.
