

## WASHBURN'S INSPIRED RANGE OFFERS GUITAR HEROINES THE REAL MONTANA

*Washburn's Disney Hannah Montana collection brings the legendary guitar maker's instruments to an eager new audience*

Washburn's stunning Hannah Montana acoustic and electric guitars offer young rock goddesses the ideal learning platforms: both models are  $\frac{3}{4}$  sizes, making them perfect for smaller hands. The new guitars also feature body shapes specifically contoured to suit younger girls.

Disney's Emmy-award winning Hannah Montana show hit our TV screen screens back in 2006. Since then, Miley Stewart's rock star alter-ego has won millions of young fans across the globe. And now, thanks to Washburn's Disney-partnered official Hannah Montana guitar range, budding Miss Montanas can pick-up a real guitar and rock the house – yes, that's *your* house!

And don't, for a minute, think these guitars are weedy sounding replicas! Built by one of the world's most respected guitar makers, the Washburn Hannah Montana range guitars may be  $\frac{3}{4}$  size models, but they pack mightily impressive specification.

The electric version features a basswood body, rosewood fingerboard, chrome hardware, lipstick pickup, and comes supplied with a cable. Add some 'Montana touches', such as the adorable star-shaped inlays, and you have got a seriously good, yet also seriously fun, axe.

The Washburn Hannah Montana acoustic also delivers terrific looks and sound. Another ¾ size body, it features guitar world’s cutest ever fretboard inlays – flower-shaped – and the rosewood bridge and fingerboard bring Washburn’s building expertise to the fore. Factor in the maker’s quality tuners, as well as a stunning finish – featuring flowers and (of course!) a Montana’esque butterfly – and you’ve got an acoustic ready to inspire young musical fingers.

The Washburn Hannah Montana guitar range message is clear: *it’s time for guitar heroines to lay down virtual guitars and pick-up real guitars.*

The Washburn Hannah Montana acoustic and Washburn Hannah Montana electric are available now, priced £89 and £119 respectively.

**About Washburn Guitars:**

For over 100 years, Washburn has built more than just great guitars, it has built a history. The Washburn tradition of craftsmanship and innovation has withstood the tests of economics, brand competition and fashion. Since its birth in Chicago in 1883, the name Washburn has been branded into the world's finest stringed instruments. If your interest in guitars borders on passion, you will settle for nothing less than a Washburn. Nuno Bettencourt, Dimebag Darrell, Roger Waters, Bootsie Collins and Jennifer Batten have the distinction of being some of the few artists ever to be honoured with a Washburn signature model guitar.

**About Sound Technology plc:**

The UK's exclusive Washburn distributor Sound Technology was founded in 1978. It is one of the largest independent distributors of music instruments and audio products in the UK, uniquely representing a select number of high profile international brands such as AKG, DigiTech, JBL Professional, Larrivée Guitars, Randall Amplifiers, Solid State Logic, and Washburn Guitars in the UK.
